Examination in higher education – Challenges and possibilities

WORKSHOP

NUMBER OF PARTICIPANTS

- No limit

DURATION

- 90 minutes each session

OBJECTIVE

- During this workshop will we together:
 - Explore the current challenges surrounding examinations in higher education
 - Analyze the purpose and relevance of traditional exams in today's educational landscape
 - Investigate alternative assessment models and their potential to address existing limitations such as the increasing use of AI
 - Discuss future possibilities and innovations in the design of exams and assessments

SUMMARY

- Examination in higher education has recently become a highly relevant topic for discussion. In this workshop, we will explore the role of exams, their traditional formats up to the present day, and the challenges we encounter in our practice. We will also examine alternative examination designs and discuss how future exams can be aligned with learning outcomes. Additionally, you will receive literature recommendations and examples of best practices.
