Moodle Basics for Lectures

ONLINE MEETING

NUMBER OF PARTICIPANTS:

- No limit

DURATION:

- 3 hours

OBJECTIVE:

- This self-study online learning course aims at introducing lecturers to the learning management system Moodle in order to become proficient in creating and designing their own courses.
- After taking the course, participants will be able to login and set their profile, create courses and enrol students, upload content, create activities and organize their students' workflows.

SUMMARY:

- The BTU offers all lecturers the use of the learning management system Moodle.
- Moodle offers numerous options for digitally enriching your teaching, from the distribution of teaching materials, to conducting electronic tests as well as engaging students through motivational activities.
- With this self-study course, you can take the first steps in getting to know and trying out basic functions of the learning platform.
