Canva for education – practical applications of Canva for teachers

WORKSHOP

NUMBER OF PARTICIPANTS:

- maximum 15 participants

DURATION:

- 180 min

OBJECTIVE:

The participants will learn how to:

1. use the available Canva features
2. adapt the tools to their specific needs
3. produce various materials to be used in the teaching process
4. utilise Canva's functionalities in PBL
5. take advantage of AI options in Canva
6. find resources to help develop the acquired skills and expand their knowledge.

SUMMARY:

Canva provides a number of tools for graphic design which can very well be used in teaching and learning. They can boost creativity and engagement in the classroom and allow for effective and interactive real-time collaboration. Both students and teachers can take advantage of Canva's features to enhance the learning process, and at the same time develop their digital literacy.

The webinar explores the manner Canva's features and functionalities can be applied in a range of university teaching situations.
