## 3. COURSE CONTENT.

The Tandem Program pairs participants from different countries who wish to learn each other's languages. Through regular meetings, each partner acts as both learner and informal tutor. Participants agree on topics (e.g. films, food, travel, hobbies, holidays, daily routines) and on language areas they want to focus on (e.g. fluency, pronunciation of phonemes, specific grammar forms).

Guidelines for possible topics will exist based on the contents/learnings of the national language courses.

Offered Languages:

Portuguese

Spanish  
German  
Italian  
(English)

The tandem pairs are accompanied by a tutor of their practicing language. They will meet up with the tutor at least three times and will get feedback from him/her on the reflection they wrote after each self-guided tandem session. The reflection can be done as a written feedback (100-300 words) or as a 3-5 minutes recording.

#### 4. LEARNING OUTCOMES.

Learning outcomes will be negotiated based on the CEFR by each pair together with the tandem counsellor.

#### 5. OBJECTIVES.

Gain autonomy and responsibility in language learning.  
Develop communication strategies in real-life settings.  
Strengthen intercultural understanding through authentic peer interaction.  
Apply knowledge from basic language courses in practical situations.

Opening and closing sessions

At least 3 meetings with tutors / more on demand

## 7. ASSESSMENT METHODS, CRITERIA AND PERIOD.

After each session, both participants upload a short description of what was covered during the meeting (e.g. a 1-3min recording). Both participants have to sign in to confirm that the session happened.

After the final session, the pair will reflect on the learning outcomes with the tandem tutor. The course is passed when the pairs have completed their 10 Tandem sessions and sent their reflections to each session to the tutor. There is no grade given for this course.

## OBSERVATIONS.

A successful tandem relies on the students' mutual involvement and their shared responsibility towards fulfilling their learning contract, both with their peer and their tutor. It is therefore important, that the students take ownership of their meeting schedule and the topics covered.
